- Retest fixed issues and maintain QA documentation.

### Tata Institute of Social Science, Software Test Engineer | [Link](#)

09 / 2021 - 07 / 2022

- Collaborated with project managers to understand new feature requirements.
- Prepared test scenarios and test case enhancements.
- Performed black-box testing, exploratory testing, and regression testing using Selenium WebDriver.
- Validated frontend and backend interface integration.
- Coordinated with developers on observations and logged defects.
- Retested fixed issues and maintained QA documentation.
- Provided technical support and managed inventory.

## Education

### MES Pillai Degree College (Mumbai University)

2018 - 2020

Master of Science in Information Technology

### Mvm Degree College (Mumbai University)

2015 - 2018

Bachelor of Science in Information Technology

---

## Internship Programme

### Myrsa Technology Solutions

03 / 2021 - 08 / 2021

- Actively participated in daily scrum meetings, prepared test scenarios and test cases.
  - Conducted user interface testing, functional testing, defect logging, and retesting.
  - Offered full-time employment upon completion of internship.
- 

## Certifications

Certified Software Testing Professional - V skills India

07 / 2020

Javascript Certification Test - KG Coding

11 / 2023

Postman Learn API From Scratch - Udemy

01 / 2024

Certified in Agile Scrum Essentials - TechCanvass

05 / 2024

Introduction to Machine Learning - Great Learning

05 / 2024

---

## Learning Projects

### Ecommerce Endpoint Validations | [Workspace Link](#) | [Presentation Link](#) | [Data File](#)

- Learned to handle variables from different scopes, validate server response for inputs, and handle data from external sources (e.g., CSV).

### Expense Tracker Application | [Repository Link](#)

- This application manages and tracks the daily expenses of users.
